 Customer No.: D103874
 Date of Receipt: 2017-04-20
 Date of Analysis: 2017-05-01
 Date of Report: 2017-05-04
 Date of Print: 2017-05-04
 No of Pages: 1

**Analysis of the genetic disposition
 Progressive Retinal Atrophy**

Name: Somethin' Spicy Follow the Leader
 Breed: Australian Shepherd
 Lab-no.: HD201709807 Identification: 528140000507996
 Gender: male Date of birth: 2012-09-28

Disposition	Result
PRA	Normal

Remark: The analysis was performed by a sister laboratory.

Legend:
Normal: The animal has two healthy alleles. When used in breeding this animal will not become ill due to the disease. It cannot spread the disease in the population.
Carrier: The animal has one healthy and one disease allele. When used in breeding 50 percent of the offspring will receive the disease allele. Carriers will not become ill.
Affected: The animal can be affected and has two disease alleles. When used in breeding all offspring will also receive the disease allele. Affected will become ill.
